

“Innovations in Bulgarian Agriculture: First steps towards EIP-AGRI”

The implementation of the EIP-AGRI in Portugal –
The NRN Support

The implementation of the EIP-AGRI in Portugal – The NRN Support

Barriers to innovation identified in PT

high costs

availability of capital and access to credit,

low cooperation and networking

difficulty in transferring the results in terms of R & D for economic enhancement of outputs

What to support

Needs

•strengthen the cooperative approach to innovation

•the use of other training tools

•facilitate transmission among producers, reducing innovation costs for businesses

•put the problems of production in the innovation agenda

What measures

INNOVATION
Agriculture
Forest
Rural Areas

a cross-cutting priority to rural
development

RDP 2020 some of the support Measures:

M – INNOVATION - **Operational Groups**

M– KNOWLEDGE – Training; Demonstration; Exchanges
and visites to farms

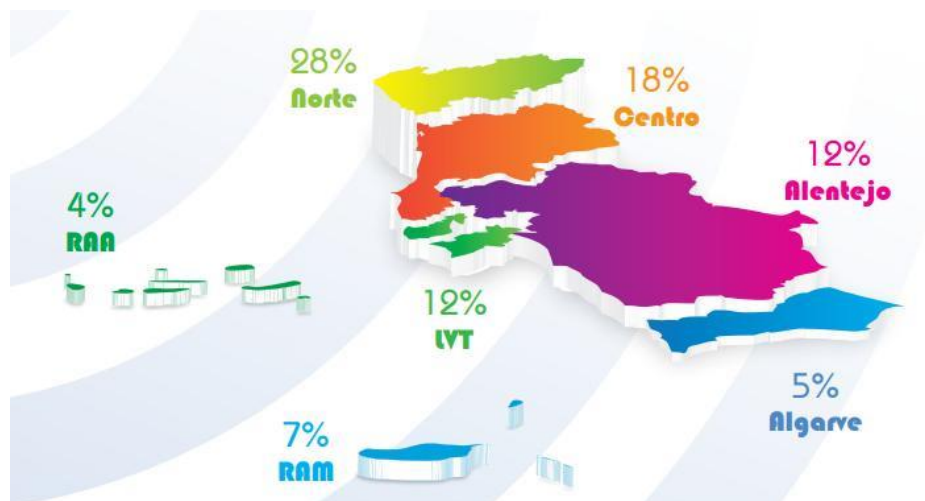

M – ADVICE SERVICES

M – NRN - dissemination; Observatory; thematic working
groups; Evaluation

Objectives

EIP AGRI – Operational Groups OG

Creating opportunities for innovation

Action 1.1 RDP 2020

THEMATIC PRIORITIES: prioritized
in the following order

- Increased resource efficiency in agricultural production and forestry
- Improving the management of agricultural and forestry systems
- Improvement in the markets integration
- Territories enhancement

The implementation of the EIP-AGRI in Portugal – The NRN Support

EIP AGRI – Operational Groups OG – M1 PDR

Creating opportunities for innovation

SELECTION CRITERIA

Regulation level

PDR - call

- Quality of the action plan;
- Adequacy of the partnership
- Plan of demonstration and dissemination;
- Issue Integrated in the established priorities of the measure
- Do not overlap with initiatives of other operational groups
- Inclusion of a “Competence Center “on the research and innovation agenda

Formula

EIP AGRI – Operational Groups OG – M1 PDR
